Do It Yourself Popcorn Kit

CONTENTS:
14 oz. Popcorn Kernels
3.1 oz. Cheddar Popcorn Seasoning
4.6 oz. Kettle Popcorn Seasoning
4 Empty Popcorn Boxes

Materials Needed:

- 3 Tbsp Coconut, Peanut, or Canola Oil
- 1/3 cup Popcorn Kernels
- 1 3-quart covered saucepan
- Salt to taste

1. Heat the oil in a 3-quart saucepan on medium high heat. If you are using coconut oil, allow all of the solid oil to melt.
2. Put 3 or 4 popcorn kernels into the oil and cover the pan.

3. When the kernels pop, add the rest of the 1/3 cup of popcorn kernels in an even layer. Cover, remove from heat and count seconds. (Count out loud; it's fun to do with kids.)

This method first heats the oil to the right temperature, then waiting 30 seconds brings all of the other kernels to a near-popping temperature so that when they are put back on the heat, they all pop at about the same time.

4. Return the pan to the heat. The popcorn should begin popping soon, and all at once. Once the popping starts in earnest, gently shake the pan by moving it back and forth over the burner.

Try to keep the lid slightly ajar to let the steam from the popcorn release (the popcorn will be drier and crisper).

5. Once the popping slows to several seconds between pops, remove the pan from the heat, remove the lid, and dump the popcorn immediately into a wide bowl. With this technique, nearly all of the kernels pop, and nothing burns.

ALLERGEN INFORMATION

Products Are Packaged In A Facility/On Equipment Where Dairy, Soy, Peanuts, Wheat And Tree Nuts Are Used. Contains: Mil
